Campo Grande, MS, Brazil

Summary

Software developer with 2 years of experience. Worked with many different projects, tools and people always aiming to deliver great products.

Experience

Full Stack Developer, Monkey – Remote Jan 2026 – Present

- Developed features and maintained backend services using Java and Spring Boot;
- Created unit, integration and contract tests to make the services more reliable;
- Traced, diagnosed, and resolved critical bugs across a microservices environment;
- Reduced 10x the latency by optimizing high-volume database updates;
- Developed new features to comply new government regulations (Duplicata escritural);
- Stack: Java, Spring Boot, RabbitMQ, MySQL, AWS, Elastic search, Docker, AssertJ, JUnit, Mockito;

Full Stack Developer, EducareBox – Remote Jun 2024 – Dec 2025

- Accelerated web pages loading times by over 60%, significantly enhancing user experience;
- Refactored a feature notification service leading to a 10x improvement in delivery speed;
- Resolved critical and complex bugs in the web and mobile platforms;
- Developed robust unit tests to ensure code correctness and maintain code quality;
- Created new features and maintained a web and a mobile platform;
- Stack: Angular, Angular Material, SCSS, React Native, Spring Boot, PostgreSQL, Typescript, Javacript, Java, JUnit, Mockito, Jaspersoft, Apache Kafka, Amazon AWS, Firebase, Azure DevOps;

Masters Researcher, Laboratory of Optimization and Combinatorics – Campinas, SP Mar 2025 – Present

- Conducted research and mathematical modeling of Routing Problems, a class of NP-hard problems;
- Engineered genetic algorithms in C++ language using a new decoder approach;
- Wrote and presented articles and reports about operations research;
- Stack: C, C++, Python, Git, Github;

Education

State University of Campinas – MS in Computer Science – GPA: 4.0 Jan 2025 – Dec 2026

Federal University of Mato Grosso do Sul – BS in Computer Science – GPA: 3.5 Jan 2021 – Dec 2024

Volunteering

2023 Brazilian Software Congress Sep 2023

- Auditorium team member and responsible for helping teachers and researchers make their presentations;

Professor Assistant - Algorithms and Programming Aug 2023 – Dec 2023

- Algorithms and programming subject monitor and was responsible for assist the teacher, help students and correct tests and projects;
